College basketball is a sport that captivates millions of fans across the country. It's a game of passion, skill, and athleticism. But what goes on behind the scenes? What are the stories of the players, coaches, and fans who make this sport so special?

In his new book, *A Season Inside: One Year in College Basketball*, author John Feinstein takes readers on an unprecedented journey inside the world of college basketball. Feinstein spent a year following the Duke Blue Devils, one of the most successful college basketball programs in the country. He had access to the players, coaches, and staff, and he witnessed firsthand the challenges and triumphs that come with playing at the highest level of college basketball. In *A Season Inside*, Feinstein tells the stories of the players who make up the Duke Blue Devils. He writes about Zion Williamson, the generational talent who was the No. 1 overall pick in the 2019 NBA Draft. He writes about RJ Barrett, the Canadian phenom who was the No. 3 overall pick in the 2019 NBA Draft. And he writes about Cam Reddish, the five-star recruit who was the No. 10 overall pick in the 2019 NBA Draft.

Feinstein also tells the stories of the coaches who lead the Duke Blue Devils. He writes about Mike Krzyzewski, the legendary coach who has won five national championships at Duke. He writes about Jon Scheyer, the associate head coach who is expected to succeed Krzyzewski when he retires. And he writes about Chris Carrawell, the assistant coach who is considered one of the best recruiters in the country.

A Season Inside is more than just a book about basketball. It's a book about the human experience. It's a book about the challenges and triumphs that we all face in life. It's a book about the power of teamwork and the importance of never giving up.

If you're a fan of college basketball, then you need to read *A Season Inside*. It's a book that will give you a new appreciation for the sport and the people who make it so special.
