Ariel Sharon, the 11th Prime Minister of Israel, was a complex and controversial figure. He was a brilliant military strategist who led Israel to victory in several wars, but he was also accused of war crimes and human rights abuses.

Sharon was born in British Mandate Palestine in 1928. He joined the Israeli army in 1948 and quickly rose through the ranks. He fought in the 1948 Arab-Israeli War, the 1956 Suez Crisis, and the 1967 Six-Day War.

In 1973, Sharon led the Israeli army to victory in the Yom Kippur War. This victory earned him the nickname "the Lion of Sharon." After the war, Sharon served as a cabinet minister in several Israeli governments.

In 2001, Sharon was elected Prime Minister of Israel. He promised to bring peace and security to Israel, but his policies were often controversial.

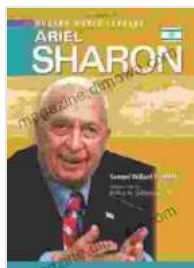

One of Sharon's most controversial policies was the construction of a security fence along the border with the West Bank. The fence was intended to prevent Palestinian suicide bombers from entering Israel, but it was also criticized for dividing the Palestinian territories.

In 2005, Sharon announced the withdrawal of Israeli troops and settlers from the Gaza Strip. This was a major step towards peace, but it was also unpopular with many Israelis.

In 2006, Sharon suffered a stroke and fell into a coma. He died in 2014.

Ariel Sharon was a complex and controversial figure. He was a brilliant military strategist who led Israel to victory in several wars, but he was also accused of war crimes and human rights abuses.

Sharon's legacy is still debated today. Some Israelis view him as a hero who saved Israel from its enemies, while others view him as a war criminal who caused the deaths of many innocent people.
