These data points can be used to evaluate a team's strengths and weaknesses, and to identify areas for improvement. By understanding each team's ideal style of play, coaches can develop game plans that maximize their team's potential.

### **Ideal Style of Play**

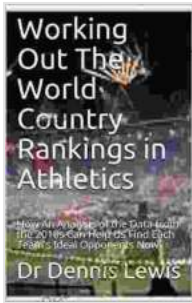

Each team has its own unique ideal style of play, based on its personnel and strengths. Some teams are better suited to a pass-heavy offense, while others are better suited to a run-heavy offense. Some teams are better at stopping the run, while others are better at stopping the pass. By understanding each team's ideal style of play, coaches can develop game plans that exploit their opponents' weaknesses.

### **How to Use Data to Find Each Team Ideal**

There are a number of ways to use data to find each team's ideal style of play. One way is to look at historical data. By analyzing past performance, coaches can identify the types of plays that have been most successful for their team. Another way to use data is to look at player performance. By understanding each player's strengths and weaknesses, coaches can develop game plans that put their players in the best position to succeed.
