

Mobile Istanbul: A Visual Journey Through the City's Ever-Changing Streets

Istanbul is a city in constant flux. It is a place where the past and present collide, where the East meets the West, and where tradition and modernity coexist in a vibrant and ever-changing landscape. This dynamism is reflected in the city's streets, which are a constant source of fascination and inspiration for photographers.

In her book, *Mobile Istanbul*, photographer Barbara Raue captures the city's streets in all their chaotic beauty. Through her lens, we see the bustling crowds, the colorful markets, the crumbling buildings, and the ever-present street vendors. Raue's photographs are a testament to the city's resilience and vitality, and they offer a unique glimpse into the lives of its people.

The City's People

Raue's photographs are full of life. She captures the faces of the city's people, from the young to the old, from the rich to the poor. We see them going about their daily lives, working, shopping, praying, and playing.

Raue's photographs reveal the diversity and humanity of Istanbul's people, and they offer a glimpse into the city's rich cultural heritage.

One of the most striking things about Raue's photographs is her ability to capture the emotions of her subjects. We see the joy in the eyes of a child playing in the street, the sadness in the face of an elderly woman sitting alone on a bench, and the determination in the eyes of a young man working hard to support his family. Raue's photographs are not just beautiful; they are also deeply humane.

The City's Streets

Istanbul's streets are a constant source of fascination for Raue. She captures their chaotic beauty, their vibrant colors, and their ever-changing atmosphere. We see the narrow, winding streets of the old city, the wide boulevards of the modern city, and the bustling markets that line the streets everywhere. Raue's photographs reveal the city's rich history and its vibrant present.

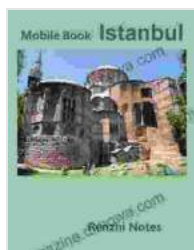

One of the most striking things about Raue's photographs is her use of light. She uses natural light to create beautiful and evocative images. In her photographs, the sunlight streams through the windows of old buildings, casting long shadows on the ground. The light reflects off the water in the Bosphorus, creating a shimmering effect.

The City's Future

Istanbul is a city in constant evolution. It is a city that is constantly changing and growing. Raue's photographs capture this sense of change and growth. We see the new buildings that are springing up all over the city, the old buildings that are being renovated, and the new streets that are being created. Raue's photographs offer a glimpse into the city's future, a future that is full of hope and possibility.

Mobile Istanbul is a beautiful and moving book that captures the essence of one of the world's most vibrant and dynamic cities. Raue's photographs are a testament to the city's resilience, vitality, and humanity. They offer a unique glimpse into the lives of Istanbul's people, and they provide a glimpse into the city's future.

All photographs by Barbara Raue. Published by Kehrer Verlag, 2020.
