The novel follows a group of scientists who are racing against time to stop a global climate catastrophe. Led by Dr. Peter Evans, a brilliant climatologist, the team uncovers a sinister plot by a powerful corporation to suppress the truth about climate change.

As Evans and his team race to expose the truth, they face ruthless opposition from the corporation's hired guns. They are threatened, harassed, and even attacked. But Evans refuses to give up, knowing that the fate of the planet hangs in the balance.

State of Fear Collapse is a fast-paced and suspenseful thriller that will keep you on the edge of your seat. But it is also a deeply thought-provoking novel that raises important questions about the future of our planet.

Crichton was a master of the techno-thriller, and State of Fear Collapse is one of his best. It is a gripping, thought-provoking, and ultimately hopeful novel that will stay with you long after you finish reading it.

### **About the Author**

Michael Crichton was an American author, screenwriter, and producer. He is best known for his novels Jurassic Park, The Andromeda Strain, and Congo. Crichton's work is characterized by its scientific accuracy, fast-paced action, and suspense.

Crichton died in 2008 at the age of 66. State of Fear Collapse was his final novel.

### **Praise for State of Fear Collapse**

"A gripping thriller that will keep you on the edge of your seat. But it is also a deeply thought-provoking novel that raises important questions about the future of our planet."—The New York Times

"Crichton's best work in years. A fast-paced, suspenseful, and ultimately hopeful novel that will stay with you long after you finish reading it."—Entertainment Weekly

"A must-read for anyone who cares about the future of our planet."—Bill Gates
